👤 About Me

Enthusiastic Bachelor of Computer Applications (BCA) student, I have developed a strong foundation in various technical domains. I possess proficiency in Tally for accounting and financial management, with a comprehensive understanding of GST regulations. My skills in Microsoft Excel include data analysis, visualization, and complex problem-solving using advanced functions and pivot tables. In web development, I have hands-on experience building responsive websites using HTML, CSS, and JavaScript. Additionally, I have solid programming skills in C, with a strong grasp of algorithms and data structures. I am passionate about leveraging my expertise to contribute to innovative projects and continuously improve my skills in dynamic environments.
